The Conference on Prayer and Healing encourages adults and mature youth to explore the reality of prayer: logically, spiritually, and theologically. The Conference provides practical experience in these dimensions of our Christian faith so we might carry out the whole ministry of Jesus Christ as his people.

Conference participants attend general sessions of worship, prayer, and teachings led by our speakers; engage in small prayer groups; explore a variety of topics related to prayer and healing through workshops; and fellowship with the Lord and one another.
